Closures will be in effect from as early as **22:00hrs**, if traffic flows are low enough, however closures of the link roads within the Almondsbury Interchange may be in effect from the earlier time of **21:00hrs**.

All closures will be removed by **06:00hrs** the following day.

Signed diversion routes will be in place for all of the closures. To include them all in this bulletin would have required a further 2 pages of text.

If however you do want a copy of these then please email -
Matthew.Rolfe@bbcel.co.uk.

Managed motorways **M4/M5** junctions 19 to 20 junctions 15 to 17

Construction activities

Foundation piling – day time works

- Piling in the verges of the M4 Eastbound carriageway is now complete. Work on the Westbound is well under way and is currently scheduled for completion in late July.
- Piling in the verges of the M5 commenced on the 30th May and will continue until late September.

Erection of gantry legs – night time works

- Between the 7th and 27th June, we will install the first sets of gantry legs on the M4 and within the Almondsbury interchange.
- The steel legs will be lifted into position by crane and bolted to pre-prepared concrete gantry bases.

Directional drilling – day time works

- Directional drilling, to allow cables to be passed beneath the carriageway, commenced on the 30th May.
- The majority of these operations are within the Almondsbury Interchange and the M5.

Earthworks – day time works

- Earthworks to construct piling platforms in the verges of the M5 will continue throughout June and is programmed for completion during August.
- Excavation of drainage channels on the M4 will continue throughout June and is programmed for completion during July.
