7th November 2016

Dear Resident

Night Time Working and Resurfacing Orchard Gate

On **Thursday 10th November** we shall be working on Orchard Gate junction with Bradley Stoke Way to carry out surfacing works. To do so we need to work at night due to the reduced volume of traffic. This will mean **working between the hours of 8pm until 6am for one night only** with the aim of carrying out all noisier work of planing / milling the existing surface prior to midnight. The aim of these works is to address safety concerns and improve the road levels removing the existing dip.

Rather than close the road fully we shall do the work with temporary traffic lights used for the duration of the works this night. Access to Orchard Gate will be maintained throughout the works.

There will be some noise disruption whilst milling the surface before the surface layer of tarmac is laid. Apologies for any disruption and delays caused throughout this period of essential work and thank you for your cooperation and assistance.

Should you have any questions or concerns relating to the works, please do not hesitate to contact me on 0845 **86 22 327**, if I miss your call please leave a message and I shall action your call. Alternatively, you can email me at metrobus@alungriffiths.co.uk. The Travelwest web site has more information on the project www.metrobusbuild.info.

Yours faithfully,

Jim Aitken
