## DON'T LET THE TORIES RUIN IT!

In the short time that Conservatives have controlled the council they have failed to deliver services to the people who need them, whether it's the young people who have had their funding cut or the pensioners who have been forced out of their bowls club by the Police and forced to play in Bristol. The actions of the council has even resulted in some of its members being referred to the Standards Committee For England for bringing the council into disrepute (the 2<sup>nd</sup> time for one of its members).

**Jon adds:** I'm disappointed that the council has acted in a way that has alienated 2 sections of our community over what are relatively small amounts of money. I know that when I was Chair of Council and Chair of the Finance Committee it was not easy to negotiate with our sports clubs, but we always came up with a compromise rather than taking the "NO Surrender" approach that is now costing the council thousands of pounds in lost revenue and legal costs. If I get elected back onto the council next Thursday I will work hard to try and repair the damage done, but I need your vote to do so. Your vote is the most important in this election, please don't leave it to somebody else."
