Southern Brooks Community Partnership has been delivering youth work in Bradley Stoke for 8 years. This was originally funded by the Lottery and for the past 5 years through Bradley Stoke Town Council and South Gloucestershire Youth Service.

Now the Town Council has decided to withdraw funding from Southern Brooks with no clear plans as to how youth work will be delivered from April 1st

We run the youth groups at the Jubilee Centre, Baileys Court and work with young people on the streets, parks and SkatePark, including the successful football project at Patchway Common Pavilion.

We have regular contact with over 180 young people each and every week and work with them on social issues, getting involved in the community and providing activities and information.

This work is highly regarded by our partner organisations including the Police, Health, Schools and Connexions

A final decision about this is to be made at an emergency Full Town council meeting on Wednesday 25th February @ 8.30pm at the Jubilee Centre. If you value the work we are doing and want it to continue then PLEASE make sure you let your local councillor know before that date.

Or please go along to the meeting
